PRODUCT CHARACTERISTICS

Leather upper

7hr water repellent leather

Offset heel

Insulated sole (cold)

Insulated sole (heat)

PARADE TECHNOLOGIES

Air cushioning

Shock-absorbent

Supports the arch of the foot

• EASY TO TIGHTEN

COMPOSITION

Upper	Pull-up leather + coated split leather
Lining	Fabric
Toe	Steel
Insole	Felt. Removable. Anti-bacterial. Anti-fungal.
Anti-puncture sole	Metallic
Sole	Two-density polyurethane
Weight size 42*	720g * Weight per shoe

**	Coefficient obtained size 42	Flat		Heel	
		Standard	Parade	Standard	Parade
	SRA Ceramic floor / Nals (soap solution)	0,32	0,47	0,28	0,46
	SRB Steel / Glycerine (oil)	0,18	0,19	0,13	0,19

SAFETY TABLE

Toe protection (safety toe cap)

Puncture-resistance

Slip-resistance**

Energy-absorbing heel

Anti-static

Hydrocarbon-resistant

Water-repellent upper

Sole insulation (cold)

Sole insulation (heat)

ENVIRONMENTAL FEATURES

At Parade, we carry out a life cycle analysis to measure the environmental impact of each of our models: from the extraction of raw materials, manufacturing, use, logistics, right through to the end of the product's life. Our environmental impact calculators, developed in-house using ADEME's EMPREINTE® database, have been certified by AFNOR for textiles and validated by the Pôle Eco-conception* for footwear.

* The Pôle Eco-conception is the French national centre for eco-design and life-cycle performance. Its expertise is recognised nationally and internationally by ADEME, the French Ministry of the Environment, AFNOR, ISO and the UN-environment.

CARBON FOOTPRINT

in kg CO₂ equivalent*

RAW MATERIALS	74 %
Raw materials: contribution to the carbon footprint as a %	
MANUFACTURING	10 %
Manufacturing: contribution to the carbon footprint as a %	
TRANSPORT	10 %
Transport: contribution to the carbon footprint as a %	
DISTRIBUTION	0 %
Distribution: contribution to the carbon footprint as a %	
USE	0 %
Use: contribution to the carbon footprint as a %	
END OF LIFE	6 %
End-of-life: contribution to the carbon footprint as a %	

* Based on a size 37 for women and a size 42 for men and unisex.

WATER POLLUTION

in kg Phosphate equivalent*

RAW MATERIALS	98 %
Raw materials: contribution to water pollution as a %	
MANUFACTURING	0 %
Manufacturing: contribution to water pollution as a %	
TRANSPORT	0 %
Transport: contribution to water pollution as a %	
DISTRIBUTION	0 %
Distribution: contribution to water pollution as a %	
USE	0 %
Use: contribution to water pollution as a %	
END OF LIFE	2 %
End of life: contribution to water pollution as a %	

► Packaging containing **at least 70%** recycled materials

► Stitching country: **India** / Assembly country: **India** / Finishing country: **France**

EXTRAS

- VPS SYSTEM supports the arch of the foot
- PARADE AIR SYSTEM air cushion technology assists flexibility when walking
- DRS SYSTEM for shock wave dissipation
- Padded high collar
- Reflective inserts
- Easy to tighten with wide metal D loops
- Sole injected in France
