ENVIRONMENTAL DATA

At Parade, we carry out a life cycle analysis to measure the environmental impact of each of our models: from the extraction of raw materials, manufacturing, use, logistics, right through to the end of the product's life. Our environmental impact calculators, developed in-house using ADEME's EMPREINTE® database, have been certified by AFNOR for textiles and validated by the Eco-design Cluster* for footwear.

*The Eco-design cluster is the national centre for eco-design and life-cycle performance. Its expertise is recognised nationally and internationally by ADEME, the French Ministry of the Environment, AFNOR, ISO and the UN-environment.

CARBON FOOTPRINT

in kg CO₂ equivalent

| Stage | Contribution to the carbon footprint (%) |
|---------------|--|
| RAW MATERIALS | 72% |
| MANUFACTURING | 8% |
| TRANSPORT | 8% |
| DISTRIBUTION | 7% |
| USE | 0% |
| END OF LIFE | 5% |

* Based on a size 37 for women and a size 42 for men and unisex.

WATER POLLUTION

in kg Phosphate equivalent**

| Stage | Contribution to water pollution (%) |
|---------------|-------------------------------------|
| RAW MATERIALS | 98% |
| MANUFACTURING | 0% |
| TRANSPORT | 0% |
| DISTRIBUTION | 0% |
| USE | 0% |
| END OF LIFE | 2% |

▶ Packaging containing at **least 70%** recycled materials

▶ Stitching country: **China** / Assembly country: **China** / Finishing country: **China**

EXTRAS

- Trainer-inspired design
- Naturally breathable and durable leather
- Foam reinforcement at collar
- Comfortable insole (8 mm)
- The sole is designed to ensure that the foot moves smoothly
- Nitrile rubber full-grip outsole
